

## Windows XP Tools

2006-08-28 16:37 - eContent

Via [Alex Barnett](#), I learned of this posting. Link to JoshBlog to access [150 Windows XP Downloads](#). There are some very useful tools. Whether you are a gamer, or want to check the RAM on your computer, you will find this page valuable.

## Save Internet Streaming Video/Webcasts

2006-08-26 13:30 - eContent

Hello from a perfect week's vacation in Minnesota's Northwoods. I am using a hot spot at [Frontier Bait](#) in Marcell, Minnesota. Anyhow, here is a quick post ... after all, I have to get back to fishing on [Northstar Lake!](#) Ever wish you could make a copy of webcasts / screencasts / streaming video ... which you watch on the web? Take a few minutes to watch this short [c|Net video](#); it will teach you how.

## Truthiness and the American Way

2006-08-18 14:56 - eContent

As I head on vacation to Northern Minnesota (no computers or cell phone coverage ... thus no posts for a while) I give you "Truthiness and the American Way"!

- [As Spoofed by Stephen Colbert](#)

(video takes a moment or two in loading, but worth the wait!)

- [As Defined by Wikipedia](#) Quoting from Wikipedia: "Truthiness is a satirical term coined by Stephen Colbert in reference to the quality by which a person claims to know something intuitively, instinctively, or "from the gut" without regard to evidence, logic, intellectual examination, or actual facts." Thus, I now leave you for a cabin in the northwoods, not too far from the border with [Minnesota's Portugal](#). (background: [Idaho's Portugal](#))

## Harvard Change Resistors Podcast

2006-08-18 14:44 - eContent

Harvard Business School Publishing ([HBR IdeaCast](#)) has a short, but very well done podcast on overcoming change resistors (skip to 17:30 minutes of the podcast to access this topic):

- [New Insights into the Enron Scandal & Winning Over Change Resistors](#)

(change segment is 3 minutes, 30 seconds in length)

## Accordion Maestro Dies

2006-08-17 11:56 - eContent

Aside from all the time I spend on the net, I also play (and love) the accordion. If you want to learn a little about a gentleman (in the true sense of the word), who was a legend in his own time, link to: (Mr. Galla-Rini was 102 years young when he died on July 30th)

- [Anthony Galla-Rini](#) I had the fortune to have met both Mr. Galla-Rini and the late [Myron Floren](#). In both cases, I attended amazing musical performances by these gentlemen when they were in their 90's. Unlike the public concerts most people get to attend, which focus on "popular" songs, these concerts were for fellow musicians .... and these two guys got to strut their stuff .... ranging from classical music to obscure folk melodies. In Mr. Galla-Rini's case, his accordion which had been bashed up by the airlines, broke during his concert. Within seconds, 20 audience members offered him their accordion. Within seconds Mr. Galla-Rini was playing again on borrowed instrument ... and sounded great. This fact may not sound like much, but accordions and their "touch" vary greatly by unique instrument. To change instruments in the middle of a concert, at age 95, and continue as if nothing happened is truly amazing. He received a standing ovation from the assembled musicians.

## Oxford Internet Institute

2006-08-17 11:01 - eContent

Last Summer, the [Oxford Internet Institute](#) inked a collaboration agreement with the [Harvard Berkman Center for Internet and Society](#). However, at the recently held Wikimania at Harvard, there was no evidence of Oxford. They do have a wealth of [webcasts](#) which focus on internet subjects. Take some time to peruse the webcasts, but don't spend any effort reading Oxford's list of achievements ([about us link](#)). I thought this might be a good source of information about the institute; instead it was a stodgy 108 page report.

# AutoCad Electrical Screencast

2006-08-16 22:55 - eContent

Here is a good reason to optimize some of your favorite searches using [Google Blog Search](#). Any search you create (and optimize) via Google Blog Search can be turned into a RSS Feed. You now have a "bot" which automatically trolls the net for your important content. When I ran my RSS Feeds this evening, I discovered a new set of [screencasts from AutoCad](#) focused on electrical design. Without my RSS feed, I might never have learned of this useful netcast. Now, one big difference in creating a search where the ultimate goal is to create a RSS Feed is your methodology. You are not looking for specific results; instead you are trying to define a domain of results. Relationships between content in search becomes more important, both for what is included, and excluded in your results. This focus absolutely requires that you always use the advanced search capability.

## Stanford Online - Fall 2006

2006-08-15 21:16 - eContent

Stanford Online is one of my two most favorite engineering webinar sites (the other being [MIT World](#)). One of the great resources, provided by Stanford without charge, are engineering seminars. This Fall there are nine such offerings webcast.

- [Stanford Online Seminars - Free Enrollment](#) Free seminars this Fall: (classes start the week of Sept. 25th, and run through Dec. 8th)

- AA-297: [Seminar in Guidance, Navigation, & Control](#)
- BIOE-393: [BioEngineering and BioDesign Forum](#)
- CS-202: [Law for Computer Science](#)
- CS-309: [Software on Demand](#)
- CS-547: [Human-Computer Interaction Seminar](#)
- EE-201: [Electrical Engineering Seminar](#)
- EE-380: [Seminar on Computer Systems](#)
- EE-402S: [Topics in International Advanced Technology Research](#)
- MSE-472: [Entrepreneurial Thought Leaders Seminar](#)

## How to Tie a Bow Tie ... As Seen on your iPod!

1970-01-01 00:00 - eContent

Have you ever been frustrated in your attempt to look like an absent minded professor? (i.e. you can't tie a bow tie)? This new service, VideoJug, is the answer to your "how to" needs.

- [How to Tie a Bow Tie ... with an English Accent](#)

or

- [How to Get Video on your iPod](#)

## Drivetime Podcasts

2006-08-14 16:01 - eContent

Following up on yesterday's post of my favorite webinar sites, today I am focusing on podcasts. Many of you know that I advocate the use of podcasts as an excellent means of short learning events. Here at Honeywell, we call our program "Drivetime Podcasts", and encourage the use of an FM Modulator (transmitter) which easily allows anyone to listen to podcasts in their car ... without the need to own a iPod or MP3 Player. Take a look at my Drivetime Podcast multimedia tutorial. It's less than four minutes long, and in this case, a picture (or two) are worth a thousand words:

- [Honeywell Drivetime Podcast Tutorial](#)

Note #1: module may take a moment to load

Note #2: maximize screen by clicking upon icon next to "paper clip" Here are some of the content links referred to in the tutorial

- [FM Modulator](#) (about \$25 US)
- [RSS Overview from c|Net](#) *Some of my favorite Podcasts*
- [800 CEO Read](#)
- [Boston Globe BizCasts](#)
- [Business Week Podcasts](#)
- [CNN Podcasts](#)
- [Deloitte](#)
- [Gartner Research](#)
- [GeoQuiz from PRI International](#)
- [Harvard Business School](#)
- [IBM Business Consulting Services](#)
- [NBC News Podcasts](#)
- [NPR Podcasts](#)
- [PopTech 2005](#)
- [Radio Tuck from Dartmouth](#)
- [Science Friday](#)
- [Wharton Business School](#) Finally, I often post podcast author interviews of leading business bookson our Honeywell Executive Books Web Site. Here are just a few examples

author interviews / podcast series:

- The Long Tail by Chris Anderson - [TCS Daily](#)
- Primal Branding by Patrick Hanlon - [Business of Success](#)

- Ten Faces on Innovation by Tom Kelley - [TechNation](#)
- The World is Flat by Thomas Friedman - [Science Friday](#)
